DIARY NOTES

25X1A

DD/S

2 January 1959

25X1A9a

25X1A9a 1. After discussions with [REDACTED] recommended that [REDACTED] become the Cable Control Officer, a position suggested in the recent Man-  
agement study for a trial period of six months. It is my understanding that General  
Cabell has accepted the recommendation but that he will want to clear it with the other  
Deputies.

2. [REDACTED] alerted me to the effect that [REDACTED] apparently does not  
agree with the role which John and I thought the Manpower Task Force was to play. I  
told him I thought that Dan should seek a conference for the Task Force with Kirk, and  
then with General Cabell and Mr. Dulles if necessary, in order to get this on the rails.

3. I discussed [REDACTED] study on "manpower priorities" with him.  
He was most apologetic and considered the effort as unsatisfactory as I did. I told him  
to take up to two more weeks if he needed it but that he would have to make a systematic  
attack on the problem.
